

## **Principal's Speech – at the School Term Commencement Ceremony 2025/2026**

Good morning, Chairlady Mrs. Wong, Supervisor Mr. Ngan, Directors, fellow teachers, and dear students,

It is with great joy and heartfelt warmth that I welcome you all to the beginning of a new school year. Last year was a truly rewarding one for our school. Our Form 6 graduates achieved remarkable results in the HKDSE 2025:

- A 100% pass rate across 12 subjects
- 7 students attained level 5\* in at least one subject
- 49 students were admitted to university programmes—almost half of the graduating class

Among them, Ng Ying Ying stood out with excellent results, including one 5\* and three 5 grades. She is now studying History at The Chinese University of Hong Kong, her favourite subject. Let us take a moment to hear some sharing of our graduates. Video please.

I hope our current Form 6 students will be inspired by their achievements and aim even higher.

This year, our school theme is enterprising 「進取」 — Be Eager to Make Progress. It reminds us to stay motivated, take initiative, and strive to improve ourselves every day. Let us embrace this spirit in our studies, in our relationships, and in our personal growth.

Our dedicated teachers will be with you every step of the way, helping you overcome challenges and grow. This year, we are pleased to welcome several new teachers to our team. They bring fresh energy and new ideas to our school. Please join me in giving a warm round of applause to:

- Ms. Ma Lee On, Assistant Principal and Head of the English KLA
- Mr. Hon Chi Ho, Head of Computer Studies

- Mr. Chow Ling Hin, Head of Mathematics
- Ms Poon Hok Hei, of the Math Dept
- Mr. Cheng Ka Ho, of the Economic and Account Dept
- Ms. Chan Sze Sze, of the Science and Phy Dept
- Mr. Lam Yeung Lung, of the Chemistry and Science Dept
- Ms. Tse Ka Hei, of the English Dept

On behalf of the school, we warmly welcome them once again. I am confident they will contribute greatly to our students' learning and to the continued development of our school.

In addition to teachers, we have some new Teaching Assistant joining us. I shall introduce them tomorrow.

Today marks a new chapter in your learning journey—one filled with promise, growth, and opportunity. Boys and girls, I encourage you to approach this term with curiosity and courage. Whether you are preparing for exams, exploring new subjects, or discovering your passions, remember: learning is not a race—it is a journey. Be kind to yourselves, support one another, and never hesitate to ask for help. Success often begins with small steps and steady effort.

I wish you all a successful and fulfilling school year.
